Paper will make a comparison between Turkey's industrial policy and Bulgaria's industrial policy in terms of meeting European Union (EU)'s criteria.

The topic is very significant because countries' level of development depend on their industrial policies. This is why EU gives more importance to this sector and candidate countries have to meet chapter on industrial policy for becoming full membership.

The paper will focus on improvement of two countries' industrial policies year over year for being of a member of EU.

**Keywords:** Industrial Policy, Turkey, EU, Bulgaria.
